

# TLI 50107 Diploma of Logistics

Today's Logistics Managers operate in a demanding environment and are regularly challenged to meet an operating budget, productivity benchmarks, compliance with legislation, industrial relations and other complex decisions. To achieve this, you must be dynamic in decision making and task application. Changes in the economic climate have accelerated the need to find innovative solutions. The Diploma of Logistics Management provides decision making skills and techniques in most aspects of supply chain management. Upon the successful completion of this course credit points towards a University degree is available.

<b>Training Arrangement</b>	Individual differences in preferred learning styles and learner readiness can be catered for in the workplace and classroom for small groups, online and mixed modes. Recognition of prior learning (RPL) can be arranged for employees who can demonstrate competency in these units. Our standard delivery method is online or small group sessions.
<b>Financial Incentives</b>	Government provided financial assistance is not currently available for this course. Courses that form part of a students' employment can be claimed as a tax deduction.
<b>Fees for Course</b>	Our fee for this program is \$3,500 GST exempt or \$250 per unit of competency. An enrolment fee of \$30.00 applies to all students. Our refund policy is available upon request from our student administration office or at <a href="http://www.colofwhousing.com.au">www.colofwhousing.com.au</a>
